MOLINARO PUSHES FOR GREEN JOBS-GREEN NEW YORK PROGRAM *Statement from Assemblyman Marcus J. Molinaro (R,C,I-Red Hook) regarding A.8901*

“As state Legislators complete the 2009 session, I am pleased that a bill I co-sponsor to authorize the New York State Energy Research and Development Agency (NYSERDA) to establish a *Green Jobs-Green New York* program was advanced. This program will promote energy conservation and community sustainability as well as create a revolving loan funds for approved qualified energy services for residential structures and non-residential structures including businesses.

Attracting businesses and creating jobs is the only way we can grow our economy and overcome our fiscal challenges. Green energy jobs provide our state an amazing opportunity to revitalize our economy and put our citizens back to work. I am glad to join my colleagues in the Hudson Valley to make certain the families and businesses in my district take full advantage of these programs.”
